DETAILED ACTION

Claim Objections

1. Claims 1-13 are objected to because of the following informalities: the preamble of each claim opens with "Device..." Claim 1 should open as: "A device..."; and the remaining claims should open as: "The device according to..." Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4, 8, and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Cunningham et al. (6,039,104).

Cunningham et al. disclose a rim clamping apparatus including the structural elements/features as claimed.

4. Claims 1-3, and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by du Quesne (4,750,538).

du Quesne discloses a rim clamping apparatus including the structural elements/features as claimed.

Allowable Subject Matter

5. Claims 5, 7, 9-11, and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the

limitations of the base claim, any intervening claims, and to correct the objection cited in the 1st paragraph of this Office Action.

Conclusion

6. The remaining prior art made of record but not relied upon, at this time, is considered pertinent to applicant's disclosure.
